- Founded in 1998, Our clients have always been our driving force and to meet these needs **SEACOM** strives to ensure that our QHSE remains our focus to date with no lost man-hours since 2011.

- We have dedicated persons whom have been involved with the offshore oil industry for over thirty years.

- Our professional staff are able to support our customers enquiries and assist where and when required.

- Due to our strategic location in Loyang, in our new premises we offer a total support package to our clients when your vessel is berthed here with-out the need to travel Island wide.

- In addition to our Marine Engineering support base we offer a full Logistical Support for our clients (please click on [Logistics by SAS](#)) for a comprehensive detail of our commitment to you.

- Please feel free to contact **SEACOM** for a complete non committal approach to your all your requirements.
